Position statement: personal bookings

16th Dec 2017

Further to the introduction of the Point-to-Point Transport (Taxis and Hire Vehicles) Act 2016 and associated Regulations, bookings for most point-to-point transport services (including taxis) may only be taken by an Authorised Booking Service.

Previously some drivers have had customers who called them directly to book a ride. Under the new laws this is an offence, unless the driver is registered as a booking service provider.

Bathurst Taxis has been requested to and is now introducing a system where the customers can contact our Call Centre and request a particular car. This will allow customers to have the choice of a particular car if they desire, assuming that that particular car is working.

For further details please speak to the driver of your preferred car.

Board of Directors.
